III. List of full names of the beneficiaries

Explanatory notes

How to read tables 1 and 2 of Annexes I and II

Table 1B

Information is given by country on total imports (dutiable and non-dutiable) at the level of aggregate imports (agricultural products falling within HS chapters 1 to 24 and industrial products within HS chapters 25 to 97. A breakdown according to categories as defined in the 1990 and 1991 EEC schemes is given for covered and received imports. These categories are contained in the Official Journal of the EEC for:

1990: L 383, volume 32, 30 December 1989
1991: L 370, volume 33, 31 December 1990

The categories are the following:

1. Industrial products other than textiles and ECSC steel products: EEC Regulation No. 3896/89 (1990) and No. 3831/90 (1991)

   (a) Category 10: Sensitive industrial products

   (b) Category 30: Non-sensitive industrial products

2. Textiles: EEC Regulation No. 3897/89 (1990) and No. 3832/90 (1991)

   (a) Category 40: MFA textiles

   (b) Category 42: Non-MFA textiles

   (c) Category 47: Jute and coir products

3. Agricultural products: EEC Regulation No. 3898/89 (1990) and No. 3833/90 (1991)

   (a) Category 50: Sensitive agricultural products

   (b) Category 52: Other agricultural products

   (c) Category 57: Agricultural products for preferential benefits of LDCs only.

4. ECSC iron and steel products: Decision 89/645/ECSC (1990) and Decision 90/672/ECSC (1991)

   (a) Category 60: Sensitive ECSC iron and steel products

   (b) Category 62: Non-sensitive ECSC iron and steel products

Table 2

Information is given under each category listed above according to product groups as defined in the scheme under each code number. However, under category 30, the products are defined at the HS position at the 4-digit level.

Definitions of products at the NC level for 1990 are provided in the Official Journal of the EC L 255, volume 32, 2 October 1989 and for 1991, L 247, volume 33, 10 September 1990. In this connection, it should be recalled that the first six digits of the NC are those of the Harmonized System (HS); hence for a broader definition references may therefore be made to the Harmonized System.

The headings of table 2 should be understood as follows:

(a) World: Imports from all sources less intra-EEC-trade

(b) Covered: Imports from all beneficiaries (nominal and effective). (By nature all these imports are covered since information is given at the level of the heading covered.)

(c) Received: Imports which received preferences from effective beneficiaries only.

(d) Numerals 1 to 5: The first five major suppliers (effective and nominal). When the major supplier is a nominal beneficiary, obviously, received preferential imports are not given.

(e) The full name of the beneficiaries is given under annex III.

Introduction

1. The Commission of the European Communities, in its reply to the note by the Secretary-General of UNCTAD of October 1973, has provided detailed statistical information on imports by the EEC in 1990 and 1991, classified by beneficiary and by product. This information is summarized below and shown in detail in tables 1 and 2 of the annexes to this note. The information contained in table 1 relates to the value of total imports and of which dutiable from the world - of which GSP beneficiary, GSP dutiable, GSP covered and preferential imports from each effective beneficiary, as well as nominal beneficiaries - of products falling within HS chapters 1 to 24, 25 to 97 and 1 to 97. In addition, details on imports (covered and preferential) are given regarding each beneficiary according to the category of products specified in the EEC scheme for 1990 and 1991. 1/ The information shown in table 2 gives the value of products covered by the scheme imported from the world, of total imports from all beneficiaries and preferential imports from effective beneficiaries, as well as from the five major beneficiary suppliers of the covered products. 2/

EEC imports from effective beneficiary suppliers in 1990 and 1991

2. The beneficiaries listed in the scheme include countries which already benefit from special preferences under special arrangements or bilateral agreements with EEC. The former covers African, Caribbean and Pacific countries (ACP), for which trade is governed by the Lomé Convention. The latter covers the Mediterranean countries 3/ and the former Yugoslavia. All these countries are considered as nominal beneficiaries while effective beneficiaries include Latin American countries and most Asian countries, Bulgaria, the former Czechoslovakia, Hungary, Poland and Romania. 4/ Furthermore, all territories, dependent or administered by any EEC member State, are also recognized as nominal beneficiaries. In the following analysis, only imports from effective beneficiaries are taken into account.

3. Total EEC imports from effective beneficiaries in 1990 and 1991, as shown in table 1A of annex I and table 1A of annex II, amounted to $144.5 billion and $156.9 billion, respectively. 5/ Dutiable imports amounted to $91.9 billion or 63.6 per cent of the value of total imports in 1990 and $104.9 billion or 66.9 per cent in 1991. Of these dutiable imports, 56 per cent ($51.5 billion) were covered by the scheme in 1990 and 61.2 per cent ($64.2 billion) were covered by the scheme in 1991. The bulk of these covered products ($45.3 billion or 88 per cent) in 1990 and ($57.3 billion or 89.3 per cent) in 1991 consisted of industrial products falling within Harmonized Commodity Description and Coding System (HS) chapters 25 to 97. Agricultural products in HS chapters 1 to 24 accounted for the remaining $6.1 billion and $6.9 billion, respectively in 1990 and 1991. Those imports in 1990 which actually received preferential treatment amounted to $22.6 billion, of which $19 billion or 84.1 per cent were industrial products and $3.7 billion agricultural products. In 1991, imports which actually received preferential treatment amounted to $30.2 billion, of which $25.1 billion or 83.1 per cent were industrial products and $5.1 billion agricultural products. The overall rate of utilization of the scheme, as measured by the ratio of imports which actually received preferential treatment to imports covered by the scheme, was 43.9 per cent in 1990

and 47.1 per cent in 1991. The utilization rates in 1991 for agricultural and industrial products, respectively, amounted to 73.8 per cent and 43.8 per cent.

4. Fourteen effective major beneficiaries accounted for $42 billion or 81.7 per cent of all imports covered by the scheme in 1990, of which $17.8 billion or 78.6 per cent actually received preferences. In 1991, 14 effective major beneficiaries accounted for $52.6 billion or 81.9 per cent of imports covered by the scheme while imports which actually received preferential treatment amounted to $23.8 billion or 78.7 per cent of covered imports from those major suppliers. In 1991, by order of relative value importance, the major suppliers were: China, Singapore, Thailand, Brazil, India, Poland, Malaysia, Indonesia, the former Czechoslovakia, Hong Kong, Hungary, Pakistan, Saudi Arabia and Mexico. In contrast with 1990, the former Czechoslovakia was the new major supplier in 1991, while the Philippines ceased to be counted as a major supplier. In 1991, the fast increase of covered imports from Thailand should be noted, while those from Hong Kong decreased.

5. Total imports from nine effective beneficiaries among the least developed countries (LDCs) 6/ attained a value of $1.845 billion in 1990. Dutiable imports amounted to $894 million and covered imports attained a value of $761 million, of which $402 million or 52.8 per cent received preferential treatment. In 1991, total imports from eight effective beneficiary LDCs 7/ attained a value of $1.146 billion while dutiable imports amounted to $1.069 billion. Covered imports amounted to $1.014 billion of which $539 million or 53.1 per cent received preferential treatment. Bangladesh ($757.5 million); Nepal ($143.8 million); Afghanistan ($29.8 million) and Haiti ($26.6 million) accounted for 94.5 per cent of total covered imports from the group of LDCs effective beneficiaries in 1991.

6. Total imports into the EEC in 1991 from ACP, Mediterranean countries (MED) and the former Yugoslavia, which enjoy special preferences in the EEC market, amounted to $23.5 billion, $20.9 billion and $9.1 billion. Of these total imports, dutiable imports amounted to $8.9 billion or 37.9 per cent for ACP countries, $13.3 billion or 63.6 per cent for Mediterranean countries and $8.4 billion or 92.1 per cent for former Yugoslavia. EEC-covered imports amounted to $2.6 billion (ACP), $3.5 billion (MED) and $2.4 billion (former Yugoslavia), respectively, which altogether represented 11.7 per cent of total covered imports from all beneficiaries (effective and nominal).

7. As may be seen from table 1B of annex I, EEC registered imports from 57 effective beneficiaries, of which 56 effective beneficiaries actually received preferential treatment in 1990.

8. As may be seen from table 1B of annex II, EEC registered imports from 59 effective beneficiaries of which 57 effective beneficiaries actually received preferential treatment in 1991. However, during the two years under consideration, the Republic of Korea, while appearing in the tables, has been suspended from preferential imports under the EEC scheme since 1 January 1988. 8/

Imports of products covered by the scheme in 1991 and their five major suppliers 9/

9. Table 2 of annex II shows the value of EEC imports in 1991 of products covered by the scheme according to the specific categories. 10/ 11/ Imports of products are given from all sources, all beneficiaries (nominal and effective) and from the first five individual major beneficiary suppliers as well as the value of imports of these products which effectively received preferential treatment in the case of effective beneficiaries.

10. Imports from beneficiaries of agricultural products covered by the scheme and valued at more than $100 million were recorded under 22 product groups as defined within the scheme. These imports amounted to $6.3 billion or 68.3 per cent of agricultural products covered by the scheme.

11. The most important among these products were: 12/ (570540) Coffee, tea, etc. 13/ ($1,326.3); (520350) Other shrimps and prawns ($1,036.3); (500040) Flue-cured Virginia type tobacco ($739.6); (521780) Other palm oils ($299.2); (523730) Flours of fish, crustaceans ... ($274.7); (522460) Crustaceans prepared ($258.5); (520960) Pistachios ($246.5); (500050) Other unmanufactured tobacco ($236.2); (520560) Octopus ($203.2) and (522540) Cocoa butter ($185.1).

12. Imports from beneficiaries of industrial products covered by the scheme and valued at more than $300 million were recorded under 44 products and/or product groups. These imports amounted to $36.1 billion or 56.8 per cent of industrial products covered by the scheme.

13. The most important among these products were: (10.1010) Automatic data processing ($2,750.3); (10.0030) Gas oils ($2,678.6); (10.1060) Reception apparatus, television ($2,245.1); (10.1110) Cathode, diode ($1,673); (10.1300) Other toys ($1,558.6); (10.0570) Trunks, suitcases ($1,258.5); (10.0010) Light oils ($1,231.8); (10.0670) Footwear with outer soles of rubber, plastic, leather ... ($1,217.9); (40.0210) Parkas, anoraks, other than knitted or crocheted ($1,192.7); (30.2711) Petroleum gases ($1,082.1); (40.0580) Carpets ($1,072); (10.0630) Plywood, wood marquetry ($1,036.7); (42.1610) Clothing other than knitted or crocheted: others ($984.4); (40.0050) Jerseys, pullovers ... ($938.3); (40.0060) men's or boy's woven breeches, shorts ... ($980.3); (40.0080) Men's or boys' shirts ... ($856.7); (40.0040) Shirt, t-shirts ... ($841.2); (10.1055) Television colour ... ($823.1); (40.0020) Woven fabrics of cotton ... ($727.4); (40.0070) Women's or girls' blouses, shirts ... ($711.5); (10.0580) Articles of apparel and clothing accessories of leather ... ($711); and, (40.0780) Garments, other than knitted or crocheted: others ($602.2).

Notes

1/ See the EC Official Journal, L 383, vol. 32 of 30 December 1989 and L 370, vol. 33 of 31 December 1990.

2/ For information on preferential imports for preceding years, see TD/B/C.5/30/Add.2, 4 and 12 and TD/B/C.5/PREF/30, 43 and 48.

3/ Algeria, Cyprus, Egypt, Jordan, Lebanon, Malta, Morocco, Syrian Arab Republic and Tunisia.

4/ The former Czechoslovakia, Hungary and Poland have been added to the list of beneficiaries under the EEC GSP scheme in 1991 and were withdrawn from that list as from 1 March 1992 as a consequence of the interim agreements on trade and related matters concluded by the Community with these countries.

5/ Which represented 25 per cent in 1990 and 26.2 per cent in 1991, respectively, of total EEC imports from all sources other than intra-EEC trade.

6/ Afghanistan, Bangladesh, Bhutan, Haiti, Lao People's Democratic Republic, Myanmar, Maldives, Nepal and Yemen.

7/ Afghanistan, Bangladesh, Bhutan, Haiti, Lao People's Democratic Republic, Myanmar, Maldives and Nepal.

8/ See TD/B/C.5/111/Add.1, page 6, footnote 11.

9/ Only covered products which were imported with a value of more than US$ 1,000 are shown in table 2 of annexes I and II.

10/ For result of 1990, see table 2 of annex I.

11/ Products are shown within tables 2 as defined within the scheme (i.e. by order number).

12/ Each important product is defined by its order number (as it appears under the EEC scheme given in brackets, followed by a brief description of the product and the value of imports covered expressed in millions of United States dollars.

13/ Regarding products under this order number, only LDCs are beneficiaries.
